- Serves customers effectively with attention to detail and a hardworking approach.
- Seeks out opportunities to go beyond basics, improve processes and
- increase customer satisfaction.
- Reliable Web Designer/ Developer incorporates solid technical bases with creative user interface design.
- Combines aesthetic considerations with technical expertise to produce visually attractive and highly functional sites and apps.
- Committed to providing visitors with smooth and pleasant interactions.
- Integrates e-commerce and other functions into website designs to meet the demands of discerning clients.
- Brings exceptional coding, validation, and debugging
- skills developed over 12 years of experience using a computer and 4 years of knowledge of web designing and surfing through the internet space.
- Uses knowledge and abilities to support forward-thinking development teams.

SKILLS

- FullStack Developer.
- Professional Web Designer.
- Node js & Express js.
- React js,
- React Native,
- Figma

- Android & IOS mobile App Developer
- HTML & CSS.
- Advanced WordPress website designer
- Professional CMS web designer eg. WordPress, Joomla, Drupal, Magento, Squarespace, Wix, Ghost, PHP script.
- Figma
- Serve customer needs
- Map site navigation
- Gather technical requirements
- Design content
- Analytical thinking
- Collaboration
- Task prioritization
- Public speaking
- Multitasking
- Verbal communication
- Prioritization
- Coordination
- Training
- Motivation
- Networking
- Research
- Organization
- Write programs
- Validate code

EXPERIENCE

- **Freelance Web Designer**, **Self-Employed, Jun 2019** - **Nov 2021, New Delhi, Delhi India**
- Developed websites to work properly across Microsoft, Google, and Mozilla browsers.
- Worked on the back end to develop server logic protocols and manage database connections.
- Collaborated with the design team to create attractive and user-friendly websites.
- Created sites and implemented special features to achieve functionality outlined in project designs.
- Completed technical development and application tasks per approved project standards and allocated budgets.
- Created error-free code in HTML, JavaScript, and PHP.

- Initiated small web projects independently and contributed to the large team effort of others.
- Used coding skills to build prototype sites according to the designer's vision.
- Validated the structure, security, and compliance of website code.
- Checked web pages for compatibility with the browsers, devices, and operating systems commonly used by customers.
- Gathered and evaluated the technical requirements for each site to produce the best code.
- Integrated e-commerce strategies into client websites to meet business demands.
- Continuously studied and improved abilities with various web technologies,
- design tools, and programming practices.
- Documented style guidelines to keep the design consistent across the team.
- Improved coding of JavaScript and CSS to enhance user experience and functionality.
- Redesigned sections of websites to create a user-friendly, visually appealing experience, increasing daily traffic.
- Updated web pages and navigation tools to meet the client's current needs and improve usability.
- Created so many prototype designs using Figma
- Expert on Web security and SSL concerned issues.
- Experienced in web content writing and Search Engine Optimization

- **Computer Operator, Sale De Video Internet Cafe, Mar 2017** - **Feb 2018, Adjarra,Porto-Novo Benin**
- Installed hardware, software, and network connections.
- Used various tools and processes to determine the health of systems and networks.
- Monitored the use of computers and assigned stations for optimal use of available resources.
- Maintained first-level cleanliness within the computer room to keep products free from trash and dust.
- Checked network cabling and devices to resolve diagnose failures.
- Trained users on the proper use and configuration of software to reduce help desk requests.
- Entering the computer demands starting operations.
- Managed and maintained processing logs and procedure manuals.
- Documented user issues, created simulations, and recreated problems to successfully diagnose concerns.

- Handled user issues with personal computers, servers, and specific applications.
- Improved product stability, functionality, and robustness by producing support-ability ideas.
- **Computer Instructor, Anam High School, Apr 2014 - Jun 2015, Anambra West, Anambra Nigeria.**
- Mentored promising students in individual areas of expertise to assist with honing skills through appropriate challenges.
- Educated computer science undergraduates on information systems structures.
- I have instructed classes on proper methods for building and optimizing computer hardware.
- Counseled students on potential career options and required educational plans to meet each target.
- I have helped students learn how to plan and execute software development projects.
- Developing and maintaining online resources like collaborative environments and supplementary literature to support coursework.

EDUCATION

Conversion course, Full stack web development

Cyclobold Tech (School of Software Engineering) - Yaba, Lagos, Nigeria May 2022

Conversion course, Web design

Arth Computer Institute - New Delhi, Delhi, India Feb 2020

Graduated with distinction.

High School Diploma, Science

Anam High School - Anambra West, Anambra, Nigeria

May 2015

Studied my Senior High School under a scholarship as the best student in 2013

scholarship program.

Library perfect, computer instructor.

Graduated at the top of the class.

Graduated with honors.

Graduated with distinction.
